- CAD Draughtspersons

Mitsubishi Electric Europe B.V. are currently handling **High Voltage Transmission & Distribution Substation (132kV to 400kV) Projects** both in the UK and throughout the Middle East.

Our offices in Croydon and the South West of England are part of the internationally renowned Mitsubishi Electric Corporation which produces and distributes a wide range of advanced electrical and electronic equipment in both the domestic and the commercial markets.

Due to the expansion of our Transmission & Distribution Business, we are looking for highly skilled and experienced applicants for the above positions.

These positions are based in the London and Bristol area and can be fixed term or permanent.

We offer an excellent salary, from £27,000 to £55,000 p.a. according to position and experience, plus benefits package including private health care and pension scheme.

To apply please send a full CV stating position applied for, eligibility to live and work in the UK, and salary expectations by 6 January 2008, to:

Ms. Daniela Horder, Human Resources, Mitsubishi Electric Europe BV, Leon House, High Street, Croydon, CR0 9XT or e-mail Daniela.horder@crd.meuk.mee.com
